»» DID YOU KNOW LAW ENFORCEMENT DOESN'T HAVE ACCESS TO KNOX BOXES?

Law enforcement does not have access to Knox Boxes without Fire Department assistance. In a major emergency, this may lead to officers breaching the door.

UDC 11-4-3-27G now requires climate controlled multi-family developments to provide emergency police access into each building entry point using a multi-technology keypad. This will allow police access, if there is an emergency, into the building if someone isn't able to come to the door to allow police entrance. The Police Department can work with you on the placement of the access.

»» WHY BE AN ACTIVE MEMBER?

Attending our meetings can provide you with key information and trainings on how to keep your properties safe.

We need feedback from you all, as the eyes and ears of your properties, to be able to effectively serve multi-housing communities.

We hope to see you at the February meeting!
